Subject: Cases Oil & Gas

Jim:

Here is a summary of our Oil & Gas work.

If you could send us a summary of your O&G work, that'd be great.

Ongoing Cases:

[REDACTED] multiple sites - open case, still negotiating.

[REDACTED] multiple sites- open case, still negotiating .

[REDACTED] multiple sites - open case, still negotiating. recent inspection trip in Mid-Sept to several more pads. Sent information request and are awaiting their response which is due mid-Feb.

[REDACTED] multiple sites - open case, still negotiating.

[REDACTED] - open case, EPA has violations it plans to resolve, likely with Administrative Order. No apparent overlap with OhioEPA's NOV.

[REDACTED] and [REDACTED] small violations, not sure how we are going to handle yet.

[REDACTED] - inspection performed week of September 25, 2017 and found non-compliance with NSPS OOOO - LDAR.

Upcoming work:

EPA is dealing with [REDACTED] facilities in other Regions. EPA HQ may approach [REDACTED] attempting to deal with noncompliance on a nationwide basis. If this happens, the [REDACTED] plant, which is 65% owned by [REDACTED], may be folded in. If not, Region 5 plans to resolve these violations.

Completed Inspections with No Further Action at this time:

[REDACTED] Antero Resources - No further investigation or enforcement planned at this time.

Ascent Resources - No further investigation or enforcement planned at this time.

Eclipse - No further investigation or enforcement planned at this time.
